ABOUT GIET JOURNAL

GIET University journal provides a platform for researchers, students, scholars and innovators to show their ideas to the world. This journal acts like a booster to the students who are interested in different fields of research. The editorial team, technical team and other members are providing their best to collect innovative ideas in the form of an article and publish it for the benefit of the society. The first two volumes (Volume 1 and Volume 2) have been successfully published which includes good quality research papers .

CHIEF EDITOR'S MESSAGE

The GIET University Journal stands as a beacon, offering a distinguished platform for researchers, students, scholars, and innovators alike to disseminate their groundbreaking ideas to a global audience. Our mission is not only to showcase academic prowess but also to inspire and propel aspiring researchers across diverse fields of study. I wish to extend my heartfelt gratitude to the leadership and management of GIET University for their unwavering support and vision in fostering such a prestigious platform for intellectual discourse. To our esteemed researchers and scholars, I warmly invite you to embark on this enlightening journey with us. Together, let us continue to elevate the standards of academic excellence and contribute meaningfully to society.

ABOUT GIET UNIVERSITY

GIET University has a legacy of excellence in responsible technical education since 1997, it is the heritage that sets us apart from other educational institutions. The GIETU Gunupur ethos is focused on identifying and nurturing the next generation of thought leaders, technocrats and scientist leaders through intuitive education. Providing superior quality education consistently and incessantly, GIETU Gunupur strives to prepare its students as engaged citizens making meaningful contribution to society. GIETU Gunupur has carved a niche for itself in pedagogical innovation and experiential learning opportunities both inside and outside the classroom, where by providing a holistic development to the students.

ABOUT SERB

One of the most notable developments in the S&T sector in the XI Plan has been the setting up of the Science and Engineering Research Board (SERB) through an Act of Parliament, viz. the Science and Engineering Research Board Act, 2008. Promoting basic research in Science and Engineering and to provide financial assistance to persons engaged in such research, academic institutions, research and development laboratories, industrial concerns and other agencies for such research and for matters connected therewith or incidental thereto are the primary and distinctive mandate of the Board.

ABOUT RACSSA-2024

International conference on "Recent Advancement in Chemical Sciences: A Sustainable Approach-2024" (RACSSA-2024) is meticulously planned to bring together researchers, scientists, academicians, industry professionals, experts and students from India and abroad to a common platform in order to establish scientific contacts among them. The informative discussions during the seminar will be on overcoming the trending issues, making future strategies that may lead to evolve a new era in the field of science, biotechnology, nuclear technology, engineering, waste management, pharmaceutical industry and petroleum industries. Moreover, this conference also provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Chemistry and Chemical Engineering. Therefore, each session, has been designed meticulously to help all the participants to fulfill these goals.
