Night Meeting conducted in Village Koroma for forming Krushak Sangha

Date: 18-08-2024

Dr. Manoranjan Mohapatra, Professor of Agricultural Extension, organized a night meeting in Karma village under Jagannathpur G.P., where over 16 farmers gathered to discuss their agricultural challenges, particularly issues related to cattle menace. Dr. Mohapatra proposed

the formation of a farmers' group to address these problems collectively, and the suggestion was met with unanimous approval. The group, named "Baidyanath Krushak Sangha," aims to foster collaboration among local farmers. In the next meeting, they plan to elect office bearers and establish a membership fee system to support the group's activities, including joint farming operations and initiatives to mitigate the impact of cattle on their fields. This collective approach marks a significant step towards community-driven agricultural solutions.

Encouraging a Progressive Farmer for scaling up his Horti-based Farming System

Date-12-04-2024

Senior Extension faculty, accompanied by final-year students, visited the Horti-based farming system of Mr. K. Shiv Kumar in Katur village. Despite having only an eighth-grade education, Mr. Kumar has successfully developed a thriving marigold farming enterprise, cultivating the flowers year-round. His dedication and innovative farming techniques have enabled him to earn an impressive ₹2.5 lakh annually from marigold cultivation alone, with his total annual income exceeding ₹6 lakh. This remarkable achievement serves as a powerful example of how determination and strategic farming practices can lead to substantial financial success, even with limited formal education.

The visit was highly insightful for the students, who were encouraged to learn from Mr. Kumar's methods and apply similar practices in their future agricultural endeavors. It was suggested that students involved in the Experiential Learning Programme (ELP) should make further visits to Mr. Kumar's farm to gain practical knowledge and inspiration from his successful model. The visit emphasized the value of hands-on learning and real-world examples in agricultural education.
